## **SENIOR CLINICAL TRIAL MANAGER**

Grade 8: £41,526 - £49,553 with a discretionary range to £54,131 p.a.

THIS POST MAY ALSO BE OFFERED AS A SECONDMENT OPPORTUNITY.

The University of Oxford, OCDEM, Diabetes Trials Unit (DTU) is offering an exciting opportunity for an experienced Clinical Trial Manager to oversee a portfolio of phase II and III clinical trials. The DTU is a UKCRC registered clinical trials unit, specialising in performing national and multinational clinical trials related to the treatment and management of cardiometabolic and related disorders.

Reporting to the DTU's Head of Clinical Research, you will oversee clinical trial set up and delivery ensuring that all activities meet quality and regulatory requirements within the agreed timelines and budget. You will work closely with multiple internal and external collaborators and industry sponsors to ensure successful delivery of trials. The post holder will be responsible for the line management of the current Clinical Trial Manager, with a view to managing additional staff in the future.

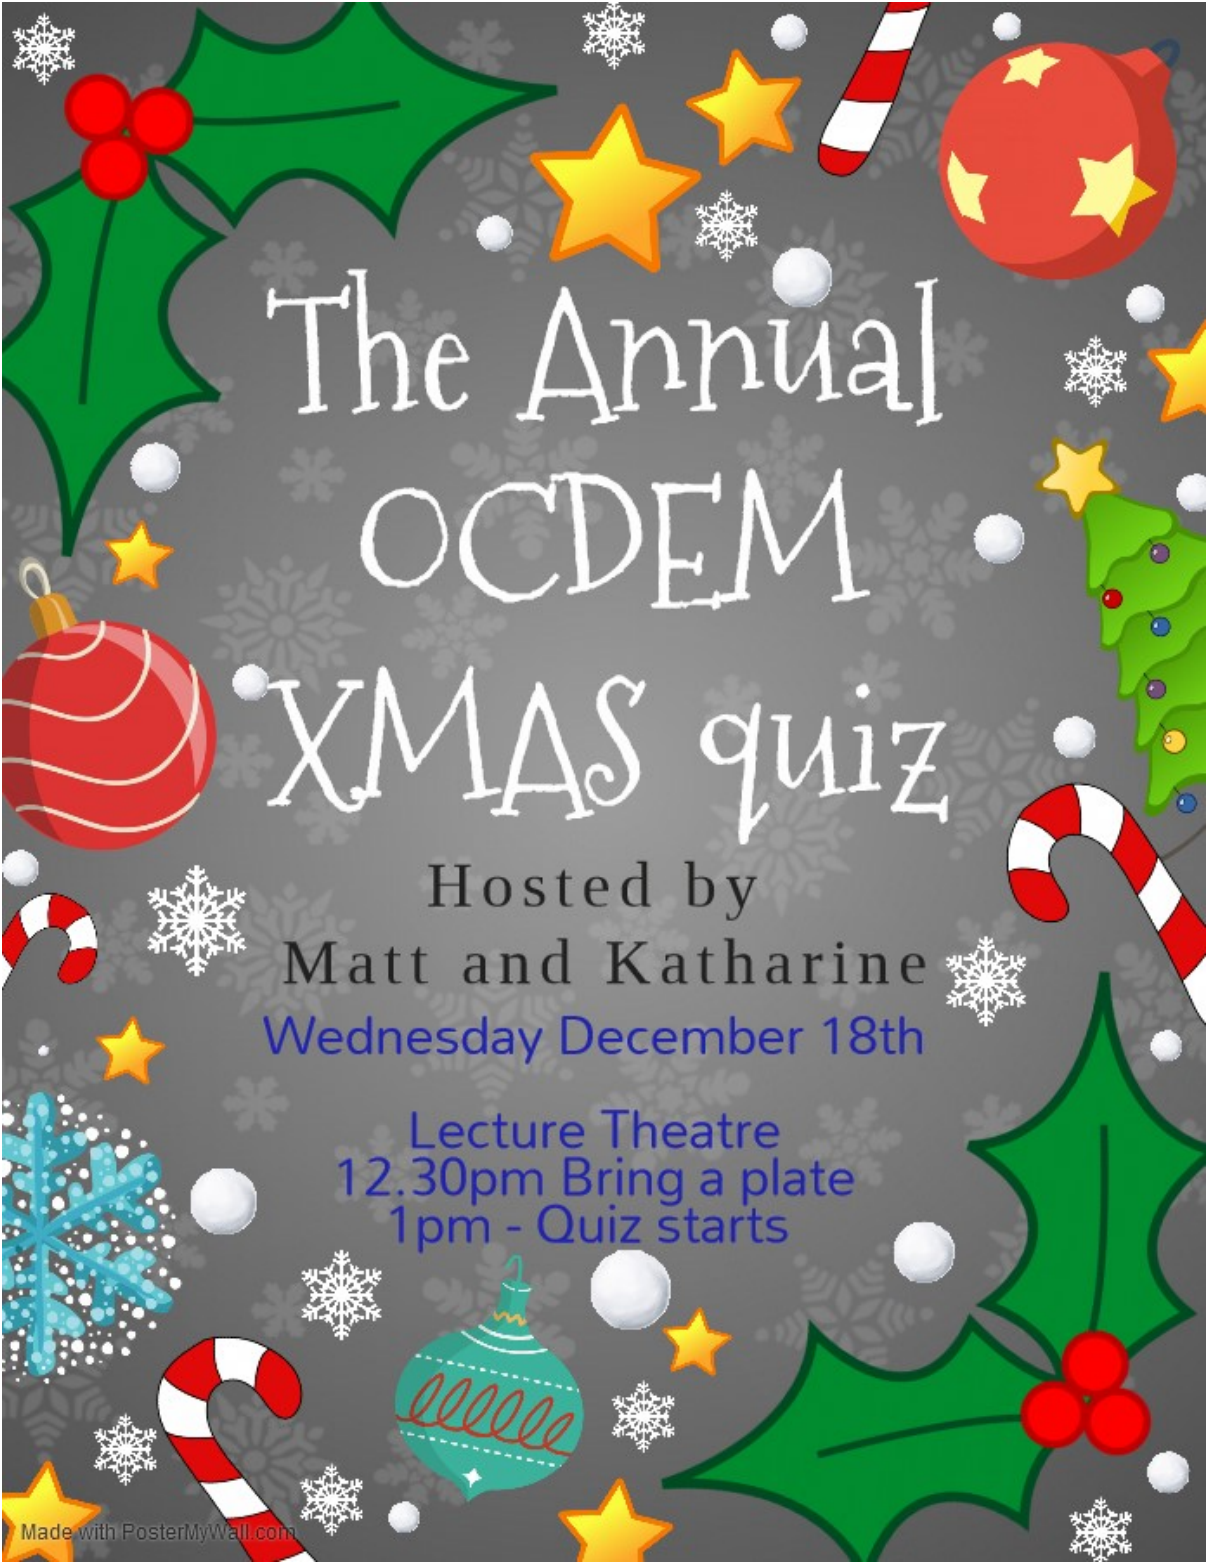

Candidates should have significant clinical trial and project management experience with a current working knowledge of GCP, GDPR, Research Governance and other key regulatory and ethical frameworks. This post requires strong organisational skills, experience of independently managing complex projects and exemplary problem solving skills. Strong leadership and personnel management and communication skills are required, with the ability to work with team members and collaborators at all levels. They will also need to be able to travel occasionally, including internationally.

The post is offered for 2 years in the first instance, with the possibility of further extension. Requests for an informal discussion should be sent to: [joanne.milton@dtu.ox.ac.uk](mailto:joanne.milton@dtu.ox.ac.uk).

The department would consider candidates with less experience who are seeking an opportunity to develop, for which the appointment would be at Grade 7 (£32,817 – £40,322 p.a.) with the responsibilities adjusted accordingly.

Please quote vacancy number 144333 in all correspondence.

Only applications received before 12.00 midday on 3 January 2020 can be considered. Interviews are scheduled for 28 January 2020.
