

FOR UNIVERSITY STAFF

WEEK COMMENCING 27 AUGUST 2018

ISSUE NO 153

SEMINARS

There are no seminars this week.

IN2SCIENCE

During the summer OCDEM staff were involved in providing six A level students first hand experience of working in a laboratory. This was part of the in2science scheme. Further information can be found on the [BRC website](#).

It's Pippin Doughnuts time again. They will be delivered on Thursday and the flavours this month are as follows:

Mixed berry jam
Chocolate
Vanilla custard
Cinnamon and brown sugar
Lemon curd
Strawberries and cream
Cappuccino
Maple and pecan (ring)

The price is £1.10 per doughnut. If you/your group wants to put in an order can you please provide Karen Parish with the details by 10 am Tuesday along with the relevant money. Karen will take delivery of the doughnuts on the day.

Organized by the Oxford BHF Centre of Research Excellence

Promoting the transfer of knowledge and expertise

Guest Lectures in Cardiovascular Medicine

Monday, 10th September 10:30-13:00*

Location: Lecture Theatre, Richard Doll Building, Old Road Campus

Subclinical Arterial Disease: Imaging, Omics, and Behaviour

Prof Valentin Fuster

Director of Mount Sinai Heart, Physician-in-Chief, The Mount Sinai Hospital

Valentin Fuster, MD, PhD, is a world-renowned cardiologist and a long-time global leader in the field of cardiovascular medicine having received the highest awards for research from the three leading cardiovascular organizations: AHA, ACC & ESC. Dr. Fuster has published more than 1,000 research studies and has been named Doctor Honoris Causa by thirty-six universities. He is a past President of the American Heart Association, past President of the World Heart Federation, Member of the US National Academy of Medicine, where he chaired the Committee for the document on "Promotion of Cardiovascular Health Worldwide", presently Co-Chairs the Advisory Committee on "the Role of the United States on Global Health" as advisor to the US President and he is a Member of the European Horizon 2020 Scientific Panel of Health.

The inflamed mind and body: Detection and treatment

Prof Zahi A. Fayad

Mount Sinai Endowed Chair in Medical Imaging and Bioengineering

Zahi A. Fayad, PhD, FAHA, FACC, FISMRM, serves as professor of Radiology and Medicine (Cardiology) at the Mount Sinai School of Medicine. He is the founding Director of the Translational and Molecular Imaging Institute; Vice chair for Research, Department of Radiology at the Icahn School of Medicine at Mount Sinai. Dr. Fayad's interdisciplinary and discipline bridging research - from engineering to biology and from pre-clinical to clinical investigations - has been dedicated to the detection and prevention of cardiovascular disease with many seminal contributions in the field of multimodality biomedical imaging and nanomedicine. He has authored more than 500 peer-reviewed publications (h-index of 91). In 2007 he was given the John Paul II Medal from Krakow, Poland in recognition for the potential of his work on humankind.

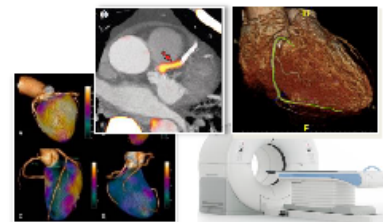

Programme

10:15-10:30 Registration

10:30-11:15 Subclinical Arterial Disease: Imaging, Omics, and Behaviour
Prof Valentin Fuster

11:15-12:00 The inflamed mind and body: Detection and treatment
Prof Zahi Fayad

12:00-13:00 Lunch and "meet the experts" reception

***Registration required**

Organizers: Prof Charis Antoniades, Miss Laura Herdman and Dr Evangelos Oikonomou
For further details on this meeting or registration please contact Miss Laura Herdman, e-mail: laura.herdman@cardiov.ox.ac.uk
Tel: 01865 572833, Information is also available on the BHF CRE website:

CYCLE SEPTEMBER

Do you love cycling? If so – and you're interested in combining cycling with winning prizes and representing your University – get involved with the National Union of Students' Unicycle challenge.

The 2018 *Cycle September* challenge, taking place between 1 and 30 September, is going global. Organisations from around the world are competing (retaining national and local leader boards too) to get the most members of staff to try riding a bike.

The organisations with the highest percentage of staff riding in September in their size category will win, plus amazing prizes are on offer for individuals and encouragers – including prize draws with great cycling related giveaways.

There's also the chance to win a dream holiday to either New Zealand or the Grand Canyon by logging all your rides, anywhere and at any time, up until 31 March 2019.

Last year Oxford University won the main UniCycle challenge, beating seven other universities to record the highest number of miles cycled over three weeks. Why not sign up to help Oxford to be successful a second time?

Cycling has numerous benefits. It can make you feel happier and healthier and it helps makes our communities cleaner and greener. You don't have to be an avid cycle commuter to take part – all types of rides count towards your team's score!

Find out more by visiting the by registering at the [Love To Ride website](#) or emailing the Environmental Sustainability team at: sustainability@admin.ox.ac.uk

We have the following new printer cartridges that are no needed:

- TN-326 – 1 x black, 1 x cyan, 2 x magenta and 2 x yellow
- HP Officejet 940XL – 1 x black, cyan, magenta and yellow

If anyone can make use of these, please email jayne.starrett@ouh.nhs.uk.

RUN the Oxford Half Marathon

for Sobell House

CHARITY PLACES AVAILABLE
please email: tim.wraith@sobellhospice.org

Sunday 7th October

Join Team Sobell for 13.1 iconic miles through the streets of Oxford.

Join our 100 runners at this year's Oxford Half Marathon, raising money to help us increase access to end of life care in Oxfordshire.

Challenge yourself
