

## FOR UNIVERSITY STAFF

WEEK COMMENCING 8 JULY 2019

ISSUE NO 195

### SEMINARS

#### WEDNESDAY SEMINAR

There is no Wednesday Seminar this week.

#### FRIDAY SEMINAR

There is no Friday seminar this week.

#### MEDICAL GRAND ROUNDS

There is no medical grand rounds this week

Congratulations to Professor Leanne Hodson who has received funding from the British Heart Foundation along with the University of Bath for the project “**Revealing the mechanisms by which milk sugars exaggerate postprandial lipaemia – implications for cardiovascular disease risk**”

Congratulations to Dr Shelley Harris of the Tomlinson group who has received funding from The Society for Endocrinology for her project “**Dissecting the role of role of 5 $\beta$ -reductase in pancreatic islet cell morphology and hormone secretion**”

Professor Jeremy Tomlinson has been appointed as the new theme leader for the BRC Diabetes and Metabolism Theme taking over from Professor Anna Gloyn. A big thank you to Anna for all the hard work which she has put into the BRC.

## **CLINICAL RESEARCH TRAINING FELLOW**

Grade E64: £32,569 - £52,200 p.a.

THIS IS A READVERTISEMENT, PREVIOUS APPLICANTS NEED NOT APPLY

The Oxford Centre for Diabetes, Endocrinology and Metabolism (OCDEM) has an exciting role in the group of Professor Thakker, FRS, for an experienced and qualified clinician to undertake a laboratory based DPhil project identifying novel epigenetic drug targets for pancreatic cancers.

The work will be focused on performing basic science techniques to examine the epigenetic landscape of exocrine and endocrine pancreatic tumours. This will identify common or inverse signatures regulating the expression of proliferation-associated genes that can subsequently be targeted using epigenetic modulating drugs. This role offers the postholder the opportunity to develop an understanding of pancreatic cancer biology, and learn diverse state-of-the-art scientific laboratory techniques, in an academic environment.

The post would suit trainees specialising in endocrinology, oncology, pathology, gastroenterology or endocrine surgery, interested in pursuing a clinical-academic career.

Applicants must be qualified with an MBBS level or equivalent, fully registered with GMC and permitted to practice medicine in the UK. Applicants will ideally have commenced or completed Core Medical Training or a medical specialty equivalent, with MRCP (or equivalent). Motivation to complete a DPhil, excellent communication skills, and the desire to pursue a career in academic medicine are essential for this post.

The post is full-time for a fixed-term of 3 years.

Please quote vacancy number 141258 in all correspondence.

Only applications received before 12.00 midday on 15 July 2019 can be considered.  
Interviews are scheduled for 31 July 2019

### Week commencing 8<sup>th</sup> July 2019

Any **foreign currency cheques/cash** that need to be banked must be with Karen Parish by **close of business Friday 12<sup>th</sup> July.**

**Staff shower rooms:** Piles of used hospital towels are being left on top of the lockers. This is becoming a regular occurrence. It is the responsibility of the members of staff using the towels to dispose of them in a white plastic bag and then put out for collection in a cage in the corridor. If there are no white plastic bags you can collect some from the linen room or ask for one in the CRU

### HEALTH AND WELLBEING

#### YOGA IN THE WORK PLACE:

**13.00-14.00 Robert Turner Lecture Theatre**

July – 9<sup>th</sup>, 16<sup>th</sup>, 23<sup>rd</sup> and 30<sup>th</sup>

RESEARCH  
SERVICES

## **BHF Visit - Early career funding workshop in Oxford**

**Thursday 19<sup>th</sup> September 2019**

BHF research advisors will be in Oxford on the 19<sup>th</sup> September to discuss research funding opportunities and application processes.

The workshop is aimed at early career researchers, departmental grants teams and research facilitators across the entire cardiovascular research spectrum, from discovery science through to clinical and population health research.

The BHF head office team will discuss relevant funding schemes and processes, current Oxford BHF fellowship holders will present their experiences and tips for working with the BHF, and there will be advice from a current BHF Panel member on how to optimise your chances of success.

This event is hosted by Research Services, as a collaboration between the Divisions of MPLS and Medical Sciences. Full details will be circulated soon.

Date: Thursday 19<sup>th</sup> September 2019

Venue: Lecture Theatre & Library, DPAG, Sherrington Building, Parks Road, Oxford

Time: 10am – 2pm including sandwich lunch

**Register now to secure a place (registration is free, but essential).**

*Registration deadline 6th September*
