

Novo Nordisk Postdoctoral Research Fellow in Diabetes and Metabolism

Selection criteria

Essential

- A PhD (completed or close to completion) in a biomedical subject, or other relevant subject, together with skills and experience relevant to biomedical research.
- Be no more than three years post PhD at the start of the fellowship. This condition will be relaxed proportionately for applicants who have had a career break.
- A strong CV, having published in high impact journals and presented at international meetings.
- An enthusiastic interest in diabetes and metabolic research.
- The ability to manage your own academic research and associated activities.
- Ability to contribute ideas for new research projects and research income generation.
- Ability to work with meticulous attention to detail.
- Evidence of excellent interpersonal skills and leadership, with the ability to communicate research ideas and results in a clear and logical way and the ability to confidently and effectively interact with colleagues and the broader research community.
- Strong verbal and written communication skills.
- A conscientious and enthusiastic working approach.
- Excellent planning, organisational and problem solving skills.

Desirable

- Previous experience of research related to type 2 diabetes and/or related conditions.
