

Novo Nordisk Clinical Research Training Fellow in Diabetes and Metabolism

Selection criteria

Essential

- Have prior research experience (typically a BSc), a medical degree and some specialist experience, typically having obtained MRCP or equivalent, but not CCT or consultant status.
- Have a strong academic record (eg prizes, 1st class degree etc).
- Registered with, or qualified to register with, the General Medical Council.
- A strong CV, as evidenced by publications in international journals.
- Committed to a career in diabetes or metabolic medicine, clinical practice and research.
- Ability to work with meticulous attention to detail.
- Evidence of excellent interpersonal skills and leadership, with the ability to communicate research ideas and results in a clear and logical way and the ability to confidently and effectively interact with colleagues and the broader research community.
- Strong verbal and written communication skills.
- A conscientious and enthusiastic working approach.
- Excellent planning, organisational and problem solving skills.
- Computer proficiency in all relevant areas.

Desirable

- Previous experience of research related to type 2 diabetes and/or related conditions.
- Experience of working in a research team (case reports, presentations, methodologies etc).
- Experience of working in a clinical environment centred on delivering care to people with diabetes.
